

Please announce to undergraduate students

Gain the skills you'll need to communicate the results of research

PowerPoint Training: Learn how to create a presentation using Microsoft Power Point. We will teach you how to put together a Power Point slide presentation, provide handouts and a slide show template for scientific research talks. This workshop will include the basics of presentation design, tips on format, directions for importing graphics and scanning. Participants are invited to stay until 5 pm to work on a presentation with help from our staff.

Workshop Dates

October 24 (Thursday), 3:10-4 pm

Location: Health Sciences Building, room 114

Presenter: Project IBS-CORE Staff

November 7 (Thursday), 3:10-4 pm

Location: Health Sciences Building, room 114

Presenter: Project IBS-CORE Staff

How to Create a Scientific Poster: Learn how to create a scientific poster using Microsoft Power Point. We will teach you how to individualize a poster for presenting your research. This workshop will include the basics of poster formatting, sections to include, directions for importing graphics and scanning Images. Participants are invited to stay until 4:30 pm to work on a poster with help from our staff.

Workshop Dates

October 29 (Tuesday), 3:10-4 pm

Location: Health Sciences Building, room 114

Presenter: Project IBS-CORE Staff

November 12 (Tuesday), 3:10-4 pm

Location: Health Sciences Building, room 114

Presenter: Project IBS-CORE Staff

No cost. Space is limited. You may attend one or both sessions. Open to all UM students, faculty and staff. To sign up, call 243-6041 or email awyrick@selway.umt.edu
